8S-FC	583035	8" Flexible Connector

The Hart & Cooley Model SLK Stainless Steel Chimney Liner Kit is the superior choice for relining oil, wood, coal and noncondensing gas-fired appliances. In addition to the kit, we also provide accessories that allow for an easier installation. These accessories include a pull down used to stretch and lead the flexible liner down the chimney and a flex connector that joins flex lengths, flex to tee length and flex to appliance outlet. All kits have a limited lifetime warranty.

- Made from .005" thick, corrosion-resistant, type 316 stainless steel
- Available in 4" – 8" diameters with 25' or 35' lengths
- 25' and 35' individual lengths and 10' insulated sleeves for improved venting in cold climates also available
- 10' insulated sleeves include 10' of insulation wrap, 10' of wire mesh, hose clamps and 14' of foil
- Tee features a 14" branch and swivels for easy alignment during installation
- Large 24" x 24" flashing base
- Complete flex kit includes:
